As things are now, voting for "YES" in the agreement with the partners / lenders is the best solution we can have for the country | 49 | 47 | 3
If "NO" wins the Referendum, the country will be able to negotiate better with partners / lenders | 44 | 52 | 4
"YES" to the measures proposed by partners / lenders means that the country is not going to come out of the crisis | 59 | 34 | 7
A "No" in the agreement with the partners / lenders will have very negative consequences for Greece | 60 | 35 | 5
